

Flexshield CALANDO PANEL

Calando Panels are our premium acoustic product. These sound-absorbing panels use a sophisticated acoustic polyester for maximum sound absorption on walls or ceiling surfaces. They are ideal for use in testing facilities, pump rooms and site offices.

Applying our highly durable Calando Panel to walls or ceilings in your venue will reduce the noise emitted from loud machinery impacting neighbouring properties.

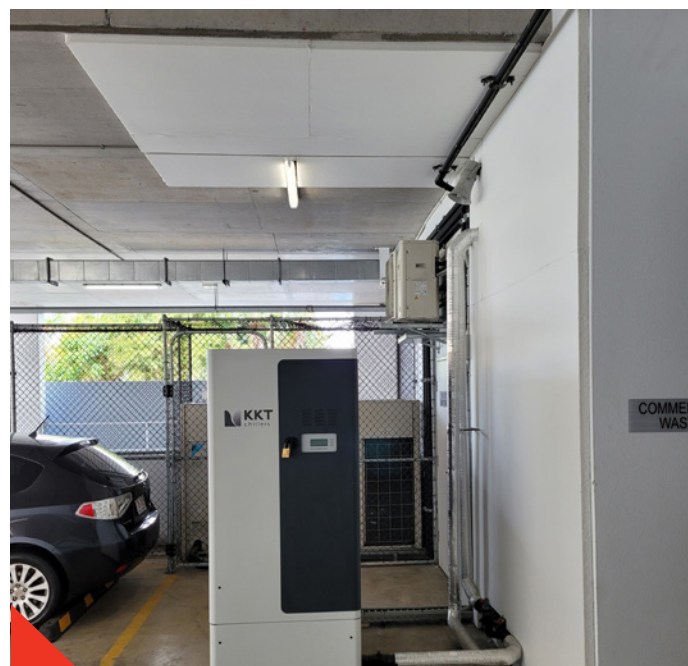

Available in white, black and grey and various 25mm, 50mm, 75mm and 100mm, offering you the flexibility to customise an acoustic solution with the absorption required for your space.
